

VACANCY ANNOUNCEMENT

Vacancy: Technicians – Space Science, Engineering, Space Operations and G.I.S and EO

The **Zimbabwe National Geospatial and Space Agency (ZINGSA)** invites applications from suitably qualified and experienced professionals to fill the positions of **Technicians** within its Space Science, Engineering, Space Operations and Geo Information Division.

The successful candidates will support the implementation, maintenance, and operation of projects and systems in space science, engineering, innovation, and research programmes

Key Responsibilities

- Assist in the installation, testing, and maintenance of scientific, mechanical, and electronic systems.
- Support research and development projects in space engineering, remote sensing, and related technologies.
- Operate and troubleshoot laboratory and field equipment.
- Conduct data collection, analysis, and reporting.
- Provide technical support for ongoing innovation and engineering initiatives.
- Ensure compliance with safety and quality standards in all technical operations.

Qualifications and Experience

National Diploma, Higher National Diploma, or Degree in one of the following areas:

- ✓ Aerospace / Aeronautical Engineering/Avionics
- ✓ Mechanical Engineering/mechatronics or related qualification
- ✓ Telecommunications / Electronic/ Software Engineering/Instrumentation
- ✓ Industrial Physics, Astronomy, Astrophysics, or Space Sciences
- ✓ Geo-Informatics, Geology, Survey or related qualification
- Practical experience in laboratory, workshop, or field study will be an added advantage.
- Demonstrated technical aptitude, innovation, and problem-solving skills.
- Strong passion for space science, engineering, and technology applications.

Application Procedure

Interested and qualified candidates should submit:

- An application letter
- Detailed Curriculum Vitae (CV)
- Certified copies of academic certificates, transcripts, and national ID

Email applications to: recruitment@zingsa.ac.zw

Closing Date: *Friday 30th November 2025*
